

# CASE STUDY: AULTMAN HOSPITAL

## OVERVIEW

At Aultman Hospital in Ohio, the anatomic pathology laboratory services four locations, as well as a GI endoscopy center. The department has four pathologists and one PA who complete over 21,000 cases per year.

## CHALLENGES

Aultman struggled with transcription bottlenecks, with only a few transcriptionists to handle a large number of cases. Pathologists' workflow suffered and cases weren't signed out in a timely manner. There was no standard procedure to handle CAP eCP cases or to ensure CAP compliance. Report errors threatened Aultman's cancer center certification.

## SOLUTION: VOICEOVER PRO

Aultman implemented Voicebrook's VoiceOver PRO reporting solution, delivering workflow automation, huge budget savings, elimination of report errors, and notable efficiency gains.

“PRO saves us time with instant report creation by dictation and immediate sign out. At the end of a busy day, that time savings is a huge difference maker.”

DR. PARS RAVICHANDRAN  
PATHOLOGIST, AULTMAN HOSPITAL

## MEASURABLE RESULTS

Aultman Hospital

**100%  
REDUCTION**  
in report errors

**UP TO ONE  
HOUR SAVED**  
per pathologist,  
per day

**\$100,000+  
SAVED**  
in transcription  
salaries

**100%  
COMPLIANT**  
with CAP eCP  
standards
